PRICE INCREASE IN MARVIN CAFETERIA AND RATHSKELLER -- The effects of inflation on food costs have necessitated an adjustment upwards in the price of certain a la carte items in the first floor cafeteria and the rathskeller in the Marvin Center. The increases, effective January 8, will be approximately 5.5 per cent.

Food costs, not including labor and other supplies, have gone up from 8 to 10 per cent above the projected increase of 6.5 per cent for 1978-79. Some of the high usage items which have shown a marked increase in price over the last year are hamburger patties, up 43.2%; fruit cocktail #10 can, up 30.8%; butter, up 20.6%; and bologna, up 29.3%.

There are said to be very few often-used foods that have not shown a marked increase in price over the last 12 months.

With the overall price increase of approximately 5.5 per cent, items such as entrees, hamburgers, and sandwiches will go up about 10¢. There is no increase expected on vegetables and most regular salads. Items such as hoagies will show a larger price increase due to increased cost of ingredients. The prices in the two facilities are expected to be competitive and, in many cases, lower than prices in restaurants and cafeterias in the surrounding area.

The university food contractor is limited to a profit and an administrative charge of 5 per cent. The increased prices will not increase the profit margin of the Macke Company.

SAFETY AND SECURITY NOTES ON CENTRIFUGES AND GLYCIDYL ETHERS -- The Office of Safety and Security has recently received notice from the Clay Adams Company, manufacturer of centrifuges, concerning potential safety hazards on certain configurations of the following centrifuges:

Clay Adams Serofuge & Serofuge II Centrifuges (Models Nos. 0511 or CT-1600, 0512, 0530, 0531, or CT-1670)

Clay Adams Autocrit Centrifuge (Model Nos. 0571 or CT-2905 & 0572)

Clay Adams Readacrit & MP Readacrit Centrifuges (Model Nos. 0591 or CT-3400, 0592, 0593, or CT-3505, 0594)

Clay Adams Safety-Head Centrifuge (Model Nos. 0005 or CT-1002 & 0006).

Departments possessing these models should contact the Safety Office at ext. 6947 for information on required corrective measures.

The National Institute for Occupational Safety and Health has reported findings that some glycidyl ethers may

be capable of producing testicular atrophy and hemopoietic abnormalities in various species of laboratory animals. Glycidyl ethers are principally used as components of epoxy resin systems. However, the institute states, in the epoxy group, glycidyl ethers generally are no longer present in completely cured products. Those who wish additional information on this subject from NIOSH Intelligence Bulletin 29 may contact the Office of Safety and Security.

faculty newsnotes

PUBLICATIONS

GEORGE KAPLAN, coordinator, Washington Policy Seminar, Institute for Educational Leadership, a book, The Vital Link: Paraprofessionals and the Education of Handicapped Children, City University of New York, October 1978.

PHYLLIS L. STEWART, associate professor of sociology, "A Survey of Obstetrician-Gynecologists' Abortion Attitudes and Performances," in Medical Care, December 1978, Vol. XVI, No. 12, pp. 76-84.

PROFESSIONAL ACTIVITIES

JAMES D. FOLEY, associate professor of engineering and applied science, participated in a panel presentation, "Managing the Development of User-Oriented Computer System," at the annual conference of the Association for Computing Machinery (ACM '78) held in Washington, D.C. December 4-6.

EDMUND P. HARPER, visiting assistant professor of physics; DONALD R. LEHMAN, associate professor of physics; and FRANCISCO PRATS, have been notified by the Department of Energy that their proposal for support of their basic research in nuclear physics will be funded as of January, 1979. The proposal is entitled "Investigations of the Structure and Electromagnetic Interactions of Few-Body Systems." Funds for the first year total $40,000.

LANCE J. HOFFMAN, associate professor of engineering and applied science, was chairman for a session on social implications of computing at the annual conference of the Association for Computing Machinery (ACM'78) in Washington, D.C. December 4-6. He spoke on computer security and risk analysis at a U.S. Army Automation Workshop in Leesburg, Va. on December 12.

SONYA QUITSLUND, assistant professor of religion, gave the keynote address, entitled "Woman as Transcendental Being," at a forum on women and religion sponsored by the Montgomery County Commission on Women on November 30. She has been elected chairperson for the standing committee on nominations of the College Theology Society and also to membership on the board of the National Catholic Conference for Interracial Justice.

IRENE THOMPSON, associate professor of Russian, presented a paper entitled "Acquisition of Cases by Adult Learners of Russian as a Second Language" at the annual meeting of the American Association of Slavic and East European Languages in New York City December 27-29.

FACULTY BOOK EXHIBITION INFORMATION -- The exhibition of books by members of the university faculty, scheduled for February 20 through March 15 in the Third Floor Gallery of the Marvin Center, will display books published in the last three years (1976, 1977, and 1978).

Deadline for receiving books for the exhibition will be Thursday, February 1st, at 5 p.m.

Books should be delivered to the Administrative Office of the Marvin Center, 2nd Floor, between 10 a.m. and 3 p.m. weekdays. For insurance purposes, it will be necessary to know the owner of each book as well as its author, and the valuation placed on each book.

Original illustrations, art work, and photographs of authors are welcome.

Questions may be directed to the Office of Public Relations, ext. 6460.

faculty newsnotes

PUBLICATIONS

EILEEN M. GUENTHER, studio lecturer in applied music (organ), a recording, "Litanies," performed on the Great Organ of The National Shrine of the Immaculate Conception, Washington, D.C., released by Vista Records, London.

PROFESSIONAL ACTIVITIES

JOHN G. ALLEE, professor of English, gave a paper "An Analysis of the Street Names in Greenland" at the annual meeting of the American Name Society in New York City December 29. The meeting was concurrent with that of the Modern Language Association. Professor Allee's presentation was a slide-illustrated study of languages in contact, showing the degree to which uniquely distinctive Greenlandic (Eskimo) names now supplement Danish names for a totally Danish street system.

PETER F. KLAREN, associate professor of history, presented a paper "Labor Contracting in a Capitalizing Andean Economy ca. 1900" at the American Historical Association's annual meeting in San Francisco December 27-30. The paper was given at a panel on "Comparative Perspectives on Rural Labor in Modern Spanish America."

THELMA Z. LAVINE, Elton professor of philosophy, chaired a session of the Association for the Philosophy of the Unconscious at the 75th Annual Meeting of the American Philosophical Association on December 27.

BENJAMIN NIMER, professor of political

science and international affairs, returned January 1 from a two-week study mission in the Middle East. He led a group of colleagues from 14 United States colleges and universities. The purpose of the mission, sponsored by the American Professors for Peace in the Middle East, was to focus on political developments, inquire into the nature and direction of responses, and look into future options. Meetings with members of the government and the opposition parties in Israel, political scientists and Middle East specialists, and a cross-section of Israelis and Palestinians were arranged. American Professors for Peace in the Middle East is an organization founded in 1967. Professor Nimer was accompanied by his wife, Professor Golda V. Nimer, librarian of the Foreign Area Studies Office of American University.

BOARD OF TRUSTEES ACTIONS -- The Board of Trustees at its meeting on Thursday, January 18, approved tuition rates for the academic year beginning fall 1979. In most cases the new figures are the same as those projected three years ago.

A notable exception is tuition for the doctor of medicine degree, where significant increases have been implemented every year for over two decades. Because recent increases have been made by class on a sliding scale, no medical student will be paying higher tuition for the coming year than he is paying at present. The board's action set tuition for members of the new class, who will enter in September 1979, at $11,800 yearly--no increase over the previous year. Tuition for second-year students is also $11,800; for third-year students, $9,600; and for fourth-year students, $8,100.

Tuition in other schools and divisions of the university is according to the following schedule.

--For undergraduate study in Columbian College of Arts and Sciences, the School of Education and Human Development, the School of Government and Business Administration, the School of Public and International Affairs, undergraduate programs in Allied Health Sciences, and for on-campus courses taken by undergraduates in the College of General Studies, there will be an increase from $3,000 to $3,200 per academic year. The cost for part-time programs will go up from $110 to $117 for each semester hour.

--For undergraduate study in the School of Engineering and Applied Science, costs will go from $3,100 to $3,400 per academic year. For the part-time program and for graduate study, there is an increase from $112 to $119 for each semester hour.

--For study in the National Law Center for the degree of juris doctor, for master's degrees, and for continuing legal education, for the full-time program (11 or more hours a semester) for two semesters, an increase from $3,600 to $4,100 will take effect. Part-time tuition rises from $145 to $165 for each semester hour. Yearly tuition for the degree of doctor of juridical science will increase from $3,700 to $4,200.

--For graduate study in the Graduate School of Arts and Sciences, the School of Education and Human Development, the School of Public and International Affairs, the School of Government and Business Administration (except for students admitted in or after fall 1978 for doctoral degrees), and for graduate and undergraduate courses in the Division of University Students, tuition will increase from $110 to $117 for each semester hour. For the degrees of doctor of business

administration and doctor of public administration, for the entire program, tuition for students who entered in fall 1978 is $8,500 (no increase); students entering in fall 1979 will pay $9,000.

--Tuition for undergraduate and graduate study in the three 1979 Summer Sessions includes increases from $107 to $112 for each semester hour in engineering; from $145 to $165 per semester hour for law; and from $105 to $110 per semester hour for all other schools.

--For undergraduate and graduate study in off-campus courses in the College of General Studies, except engineering, there is an increase from $82 to $88 per semester hour. For off-campus undergraduate and graduate engineering courses, increases are from $112 to $119 a semester hour.

--A $110 residence fee was formerly charged each student permitted to maintain "in residence" status during any semester of absence from the university or after completion of tuition requirements. No such fee will be charged in the coming year.

In other action the board approved the appointment of a student member to the Standing Committee on University Development. This brings to 3 the number of students on standing committees of the board.

NOMINATIONS FOR GEORGE WASHINGTON AWARDS -- The Joint Committee of Faculty and Students is seeking nominations for the third annual GW Awards to be presented at the spring commencements. The awards were established in 1976 to give recognition to members of the university community whose accomplishments have had a broad impact and whose service to the community has been unusually fine.

Letters of nomination must make explicit the contributions, activities, nature of the positions held, and other pertinent qualities and accomplishments of the nominee. Letters should include the names and addresses of three or more individuals who have agreed to provide supportive information regarding the nominee upon request from the Selection Committee. Nomination materials should be forwarded to the Joint Committee, care of the Student Affairs Office, Rice Hall, 4th Floor, 2121 Eye Street, N.W. by 5 p.m. Friday, February 16. Further information may be obtained by calling ext. 7210.

LIBRARY SPECIALIST, HOSPITAL READING ROOM -- Elizabeth Toiya Nyang has been appointed librarian specialist for the Hospital Reading Room. She will serve as a liaison between the hospital staff and the Himmelfarb Health Sciences Library, assisting with on-line searches, interlibrary loan and reference services. She can be reached at the Hospital Reading Room, ext. 4723 or at the Himmelfarb Library, ext. 2963.

FIRST EXECUTIVE-IN-RESIDENCE AT SGBA -- Jayne Baker Spain, a former senior vice president of the Gulf Oil Corporation who has held leadership positions in both government and business, has been named the first Executive-in-Residence in the university's School of Government and Business Administration.

Dr. Spain, whose appointment is effective immediately, will carry the title of "Distinguished Visiting Professor of Government and Business" and will design a new Executive-in-Residence program for the school. Dean Norma Maine Loeser said the program is being initiated to "open new channels of communication and facilitate better understanding between the public and private sectors" by bringing top executives in both government and business to the campus for a variety of special academic programs.

Having recently completed a three-year term as Gulf's senior vice president for public affairs, Dr. Spain now acts as a consultant to the corporation. She served in public administration as a member of the U.S. Civil Service Commission from 1971 to 1975 and as vice chairman of the President's Committee on Employment of the Handicapped. She continues to hold the latter position. She is also a member of the President's Commission on Personnel Interchange.

Dr. Spain began her business career in 1951 when she took over the presidency of the family firm, the Alvey-Ferguson Company of Cincinnati, an international manufacturer of conveying systems for unit handling. She remained its chief executive officer and chairman of the board until 1966 when the company merged with Litton Industries. She then became president of Litton's Unit Handling Operations and served until 1971 when she was appointed vice chairman of the Civil Service Commission.

A pioneer in the employment of the handicapped, she has been honored by numerous national and international organizations for recognizing the value of employing the handicapped.

Educated at the University of California (Berkeley) and at the University of Cincinnati, Dr. Spain has received several honorary degrees including the honorary Doctor of Public Service from George Washington in 1970.

GW FORUM TOPIC -- "Heroes/Heroines" is the topic for the spring issue of the GW Forum. The editors would like to receive essays about a hero or heroine, either a public figure or someone in private life, and why that person is a hero or heroine to the writer. If a writer has no hero or heroine, the editors would like to receive essays explaining why not.

Submissions should be from 1,000 to 2,000 words in length. Deadline for turning in manuscripts is Tuesday, February 20. They may be delivered to the office of Professor A.E. Claeyssens, Stuart Hall, Room 409, or left in his mailbox in the corridor near his office. Questions may be directed to Professor Claeyssens at ext. 6920 or to Ira Brodsky at 223-1045 (evenings).

FACULTY AUTHORS are reminded that the final date for delivering books for the faculty book exhibition scheduled for February 20 through March 15, is Thursday, February 1st at 5 p.m. Books should be delivered to the Administrative Office, 2nd Floor, Marvin Center, between 10 a.m. and 3 p.m. weekdays. Questions may be directed to the Office of Public Relations ext. 6460.

PROFESSIONAL ACTIVITIES

E.P. KULAWIEC, associate professor of education, gave a lecture-slide-film presentation at Seton Hall University, South Orange, New Jersey, on January 8 at the invitation of the Polish Cultural Society of New Jersey entitled "The Churchless Saint or Who Was Janusz Korczak?" Professor Kulawiec serves as the United States delegate to the International Korczak Committee.

J. KENNETH MCDONALD, associate professor of international affairs, was the commentator on a session on "Soldiers of the Sea: Commentaries Pertaining to Britain's Royal Marines and the United States Marine Corps" at the American Historical Association's annual meeting in San Francisco in late December.

NADINE NATOV, associate professor of Russian, presented a paper, "Moliere and Bulgakov," at the Modern Language Association session on East-West literary relations in New York at the end of December. At the annual meeting of the American Association of Teachers of Slavic and East European Languages, she chaired a colloquium on Mikhail Bulgakov. At the same meeting, at the session on Russian literature of the 1970s, she read a paper, "Reawakening Conscience and Its Effect on Man as Depicted in Trifonov's Last Works." At the annual meeting of the American Dostoevsky Society, Professor Natov, in her capacity as chairman of the organizing committee of the IVth International Dostoevsky Symposium, presented an informational paper on the preparation and procedures of the symposium to be held in August 1980 in Bergamo, Italy.

HOWARD M. SACHAR, professor of history, was the commentator on papers dealing with "Teaching the Holocaust: Comparative Approaches to a Sensitive Subject" at the American Historical Association's annual meeting in San Francisco in late December.

LOIS G. SCHWOERER, professor of history, was the commentator at a session on "Radical Ideas in Restoration England" at the American Historical Association's annual meeting in San Francisco in late December.

WINTER CONVOCATION -- President Lisle C. Carter, Jr., of the University of the District of Columbia will deliver the convocation address and receive the honorary degree of Doctor of Laws at the university's Winter Convocation on Monday, February 19, at 1 p.m. in the Charles E. Smith Center.

Charles E. Phillips, co-chairman emeritus of the Board of Trustees and chairman of the board of the Equitable Life Insurance Company, will receive the honorary degree of Doctor of Laws. Mrs. Laura E. Phillips will receive the degree of Doctor of Humane Letters. This is the first time that a husband and wife, both alumni, will receive honorary degrees from GW during the same ceremony. Mr. Phillips has both the Bachelor of Laws (1925) and the Master of Laws (1926) from George Washington and Mrs. Phillips holds the Bachelor of Arts cum laude (1941). Charles E. Smith, an honorary trustee of the university, and a builder and realtor, will receive the degree of Doctor of Public Service. He will accept the honor in the building which bears his name.

Alumni achievement awards will be made to Stephen R. Graubard, B.A., 1945, editor of Daedalus magazine; Gunther K. Kessler, B.S., 1953, past chairman of the Legislative and Governmental Affairs Committee of the Virginia Pharmaceutical Association; Eugene C. Rice, Jr., M.D., 1916, a pathologist with a special interest in diabetes; and Jonas B. Robitscher, J.D., 1948 and M.D., 1955, Henry R. Luce Professor of Law and the Behavioral Sciences at Emory University. General Alumni Association President William M. Porter will present the recipients to President Elliott who will make the presentations.

Approximately 1,200 persons are expected to receive degrees at the convocation. President Elliott will confer the honorary degrees and degrees in course and give the traditional charge to the graduates. The invocation and benediction will be given by Rabbi Stanley Rabinowitz of Adas Israel Congregation.

The time of the convocation, 1 p.m., is a departure from the custom of holding the convocation at 8 in the evening and should allow graduates and their families who live on the East Coast to return home earlier after the ceremonies.

Following the convocation, receptions have been planned for graduates and their families and friends at two locations. Graduates of Columbian College, the Graduate School of Arts and Sciences, and the School of Public and International Affairs are invited to the first floor cafeteria of the Marvin Center. Those receiving degrees from the National Law Center, the School of Education and Human

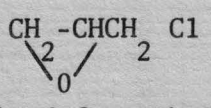
Development, the School of Engineering and Applied Science, and the School of Government and Business Administration will gather in the third floor ballroom of the Marvin Center.

"HEALTH CALL" AND "HEALTH FILE" -- "Health Call," the Medical Center's health information radio program produced in cooperation with Radio Station WAMU-FM, continues with live one-hour presentations every Monday beginning at 11 a.m. A broad range of health topics is discussed by GW health professionals. Host for "Health Call" is Diane Rehm of WAMU-FM.

"Health File," produced in cooperation with WDVM-TV, Channel 9, is telecast every Monday, Wednesday, and Friday during the 1 p.m. and 5:30 p.m. Eyewitness News shows. On the series GW physicians discuss such health-related topics as winter running, epilepsy, and emergency room use. A separate telecast of "Health File" is aired during the weekend (usually during the 6 p.m. news on Saturday or Sunday) with a separate GW guest and topic.

SAFETY NOTE -- Based on two recent studies, the U.S. Department of Health, Education and Welfare recommends that the following substance be handled as a human carcinogen:

Epichlorohydrin



Additional details may be obtained from the Safety Officer, Office of Safety and Security, ext. 6947.

faculty newsnotes

PUBLICATIONS

DONALD GROSS, professor of operations research, an article, "Spares Provisioning for Repairable Items: Cyclic Queues in Light Traffic" (with JOHN F. INCE, assistant professorial lecturer), AIEE Transactions, Vol. 10, No. 3, September 1978.

MICHAEL J. STOIL, assistant professorial lecturer, and JAMES P. LESTER, university fellow and graduate teaching assistant in political science, an article, "Teaching Goals and Simulation Formats: A Typology," Teaching Political Science, Vol. 6, January 1979.

ROBERT H. WALKER, professor of American civilization, has written the preface for the volume Ezra Pound Speaking, the latest in his series for the Greenwood Press "Contributions in American Studies." In Ezra Pound Speaking, volume editor Leonard Doob has assembled, with appendices, the heretofore unpublished texts of Pound's notorious radio broadcasts from Italy during World War II. The broadcasts led to two major literary prize controversies, to Pound's trial and conviction for treason, and to his commitment to St. Elizabeth's Hospital in Washington. Ezra Pound's daughter provided considerable help in assembling the texts. The preface by series editor Walker places the broadcasts in the context of their place and time.

PROFESSIONAL ACTIVITIES

JONATHAN FIFE, director of the ERIC Clearinghouse on Higher Education, Marilyn Shorr, assistant director, and Lynn Haupt, coordinator of document processing, conferred with representatives of Puerto Rican colleges and universities in San Juan, P.R. December 11-14. They held workshops and gave presentations for groups of administrators, faculty, librarians, and graduate students. Their visit was at the request of the administration of the Inter-American University of Puerto Rico, which is coordinating efforts to set up an education information network throughout the island.

THELMA Z. LAVINE, Elton professor of philosophy, can be seen on television in the Chicago area on Channel 44 as well as in Maryland and the District of Columbia, teaching the course "Introduction to Philosophy from Socrates to Sartre" through the Maryland Center for Public Broadcasting's College of the Air. The course is being given in Chicago by the Chicago City Colleges, the public junior college system for Cook County, Illinois. Professor Lavine's course can be viewed in Washington on Channel 22 Mondays and Wednesdays at 7 a.m. and the following Saturday from 11 a.m. to 12 noon, when the two half-hour programs are combined.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, co-authored a paper with C. OMIDYAR, research associate, on "Local Control for Packet Switching for a N-Station Polling System." Professor Pickholtz presented the paper at the Pacific Telecommunication Conference on January 9.

LAW DEAN CHOSEN -- Professor of Law Jerome A. Barron, a nationally recognized First Amendment scholar, has been appointed dean of the university's National Law Center, effective July 1. Professor Barron, 45, has been a GW law faculty member since 1965. He will succeed Dean Robert Kramer who is retiring after 18 years as law school dean.

In making the appointment, President Elliott said, "Professor Barron is a highly respected teacher, a distinguished scholar, and a leader in legal education, who comes to this office overwhelmingly endorsed by his colleagues on the faculty and by the students he teaches."

Professor Barron has said that while he is dean, he hopes the law school will become "a center for the beginning of new ideas in the law."

The dean-designate, who received his law degree from Yale University in 1958 and his master of laws degree from George Washington in 1960, has specialized in constitutional and communication law. His study of First Amendment issues has dealt particularly with the subject of the right of public access to the mass media. He has argued before the U.S. Supreme Court and, from 1973 to 1974, served as a consultant to the Senate Select Committee on Presidential Campaign Activities (Watergate Committee).

Author of numerous articles and books on constitutional law, Professor Barron has written three texts: Mass Communication Law, Cases and Comment (with Donald Gillmor), the third edition to be published this spring; Constitutional Law: Principles and Policy (with C. Thomas Dienes), 1975; and Handbook of Free Speech and Free Press (with C. Thomas Dienes) to be published this spring. Professor Barron's book Freedom of the Press for Whom? (1973) focuses on the issue of the public's right of access to newspapers.

Before coming to George Washington, Professor Barron taught at the law schools of the University of North Dakota and the University of New Mexico. From 1972 to 1973, he served as dean of the Syracuse University College of Law. He is a member of the American Bar Association, the advisory board of the Media Law Reporter, and a member of the board of directors of the GW Law Alumni Association. He appears in Who's Who in American Law.

Born in Tewksbury, Mass., Professor Barron received his bachelor's degree magna cum laude from Tufts College in 1955 and was elected to Phi Beta Kappa.

"GEORGE CALLING" TELETHON -- The 1979 telethon, "George Calling," opens in Washington this evening, Monday,

February 12, and will continue Mondays through Thursdays (with the exception of Monday, February 19). Mrs. Margaret Truman Daniel is serving as national chairman for this year's Annual Fund Drive. The telethon, the university's annual alumni telephone fund-raising drive, will be held in Room 410-415 in the Marvin Center between 5:45 and 9:30 p.m. on the dates noted. All members of the university community (faculty, students, staff, and alumni) are encouraged to volunteer for evenings of their choice. Complimentary parking in the Marvin Center garage is provided and a hot dinner, catered by the GWU Club, is served.

A new feature of this year's telethon is a nationwide sweepstakes, a drawing for six donated prizes on the final day of the 1978-79 campaign, June 30. Prizes include a portable television set, travel, vacation accommodations, Capital Centre tickets, dinners at the George Washington University Club, and U.S. Government 'Series E' Bonds.

For further information and to volunteer, call or visit the Development Office, University Library, Room 701, telephone 676-6415.

GEORGE WASHINGTON AWARDS NOMINATION DEADLINE -- Nominations for the 3rd annual George Washington Awards are due by 5 p.m. Friday, February 16. Letters should be addressed to the attention of the Joint Committee of Faculty and Students, Office of Student Affairs, Rice Hall, 2121 Eye Street, N.W., 4th floor. For further information, call ext. 7210.

GEORGE'S BIRTHDAY BLIZZARD -- Commenting on the blizzard of February 18th and 19th which forced the cancellation of Winter Convocation, President Elliott addressed the following memorandum to the George Washington University community on February 21st:

"It was a beautiful scene in Washington. I refer, of course, to the day of the blizzard of '79! Unfortunately it wreaked havoc with the best laid plans for our annual observance of George Washington's Birthday. To repair the damage, or pick up the pieces, after the thaw, the following arrangements have been made:

1. All Winter Convocation graduates and other scheduled participants will be invited to join us in the commencement exercises in May. Where geography and personal plans prevent this, diplomas will be mailed directly.
2. Alumni Achievement Award recipients will be invited to receive the honors at the first convenient commencement exercises in the future. This may be May 1979 or February of 1980.
3. The Registrar of the University will serve as the official contact office and handle all correspondence for graduates.

As we go back to shovelling snow, the history books tell us we may expect another such blizzard in 57 years!"

INFORMATION ON GERONTOLOGY ACTIVITIES AT GW -- "Our efforts to develop programs which address the processes of aging take on increasing importance as the percentage of the population in the upper age brackets increases," says Dr. Harold Bright, provost and vice president for academic affairs. He is discussing the expanding scope and significance of GW programs in gerontology and the consequent need for coordination. "We want to alert faculty throughout the university to work being done in this field by their colleagues," he says.

At least six divisions of the university are now involved in programs of research, teaching, and service in this area. Present activities include the following:

--A multidisciplinary gerontology program, coordinated by the School of Medicine and Health Sciences, is designed to develop gerontology/geriatric training opportunities within GW, to encourage research and student involvement in the field of aging, and to improve professional services to meet the needs of the elderly. (Call Ms. Nona Boren, ext. 3721)

--The Institute of Law and Aging at the National Law Center includes a legal clinic, and storefront operations and a paralegal training program for senior citizens. The Institute also publishes numerous materials concerning

legal problems faced by the elderly. (Call Prof. Donald Rothschild, ext. 6364)

--The Department of Health Care Administration offers several courses: Issues in Aging, an interdisciplinary course with Health Care Sciences, Introduction to Long-Term Care Administration, Managing Long-Term Care Institutions, and Integration of Human Services. Long-Term Care Administration, a major within Health Care Administration, relates directly to this area. (Call Prof. Phillip Reeves, ext. 6220)

--The Graduate School of Arts and Sciences has initiated a new master's program in gerontology to prepare persons for careers in policy analysis and the planning, development, and evaluation of programs serving older citizens. (Call Prof. Robert Brown, ext. 6899)

--The Division of Experimental Programs has recently received a $25,000 grant from the National Council on Aging to fund an intergenerational service/learning project to demonstrate that student manpower can effectively be used to address problems of the vulnerable elderly in D.C. (Call Prof. Linda Lear, ext. 7565)

--The Department of Human Kinetics and Leisure Studies offers two courses for teaching dance to senior citizens: a practicum in Dance and the Elderly and a workshop, Movement Fundamentals for the Senior Citizen. (Call Prof. J.L. Breen, ext. 6280)

UNIVERSITY BOOKSTORE - BOOK REQUEST FORMS --1979 summer book request forms will be sent to all departmental offices by Monday, March 5. Faculty members are asked to return them by Monday, March 19, so that orders may be placed to ensure correct books for the Summer Sessions.

Fall 1979 book request forms will be available in the departmental offices on Monday, April 2. Return date is Friday, May 4.

FACULTY AUTHORS -- More than 50 books written or edited by members of the university faculty in the years 1976, 1977, and 1978, are on exhibition in the Third Floor Gallery of the Cloyd H. Marvin Center through Thursday, March 15.

FACULTY ARTISTS -- Art works by Douglas H. Teller, professor of design and graphics, and H.I. Gates, assistant professor of sculpture, are on exhibition in the Dimock Gallery, off the lower lounge of Lisner Auditorium, through Friday, March 30.

Professor Teller's serigraphs and drawings in this exhibition span the years 1961 to 1978, a period in which he moved from essentially abstract images and linear designs to strongly figurative elements.

Professor Gates is seen, in this exhibition, as a sculptor, assemblagist, and painter. His works include mixed media on canvas and on wood panels, and sculpture in steel and aluminum.

Both artists have had numerous one-man shows and both are represented in many public and private collections.

The work of Constance Costigan, assistant professor of design, is on exhibition through Friday, March 23, at the Barbara Fiedler Gallery at 1621 - 21st Street, N.W. The one-artist show of recent layered graphite is titled, "Inscapes and Numina: Reliquaries, Icons, and Prayer Sticks."

CONSORTIUM LIBRARIES NEW GIFT APPRAISAL POLICY -- A policy has been recently established to standardize procedures for the appraisal of gifts of books made to consortium libraries. For gifts with a fair market value totalling no more than $1,000 in one calendar year, the libraries will continue to provide estimates, which are not considered formal or official appraisals. For gifts of more than $1,000, donors will be expected to provide their own appraisals (with library staff assistance if requested) or to employ an expert appraiser. (Names and addresses of local appraisers can be supplied.) In the case of a gift of unusual value, either of monetary value or of value for meeting a major library need, the chief librarian may waive the appraisal requirement and authorize payment from library funds for the services of an outside expert.

The complete policy statement on appraisals is available from the University Librarian, ext. 6455, or from the Chief Acquisitions Librarian, ext. 6846.

MARCH 21 PARKING SURVEY -- A reminder for all those who received parking survey forms from the university by mail: Wednesday, March 21, is the day of the survey. It is important that the questions be answered on that day for the success of the survey. It is equally important that as many responses as possible be returned. Survey results will be used to review the current parking situation and patterns, and to plan for the future to provide adequately for the university in its day-to-day operation. In a random mailing, the survey forms were sent to approximately half of the university community, including students, faculty, staff and visitors. Answers are needed from everyone who received the questionnaire, including drivers, Metro riders, walkers, joggers, bicycle riders et cetera. For further information, call Mr. Munt at ext. 6400, or Mr. Mello at ext. 6405.

UNITED WAY CAMPAIGN SUCCESS -- Total contributions to the GW 1978-79 United Way Campaign came to $53,984.95. This is a 12% increase over last year's total and an all-time high for the university.

Gold Honor Awards, for 85% participation and an average contribution of $30, were earned by 15 departments. Silver Honor Awards, for 60% participation and an average contribution of $15, were earned by 30. Frederic A. Hooper, adjunct associate professor of engineering, was chairman of the campaign.

------ a paper, with J. Michener, "Some Major Issues in the Design of the Core Graphics System," Computing Surveys, December 1978.

LENORE D. MILLER, curator of art, Dimock Gallery, "Brown Wrapper: A Collaboration of Four Artists," Art Voices South magazine, March/April edition, 1979. (Members of the Brown Wrapper Group, Linda Thern-Smith, Karen Montgomery, Jo Harrop, and Beth Hobby, are all former art students at GW.)

PROFESSIONAL ACTIVITIES

GEORGE R. BOZZINI, associate professor of English and director of English for

international students, presented a paper "On English for Special Purposes" at the 13th annual convention of TESOL (Teachers of English to Speakers of Other Languages) in Boston, on March 1.

SAMUEL HALPERIN, director of the Institute for Educational Leadership, spoke at the 1979 Policy Seminar of the American Vocational Association March 4 on "How Educational Policy Decisions are Made in Washington: Who, What, Where and Why?" On March 8, he spoke to the North Carolina Association of Educational Office Personnel on "Are We Really Serious About the International Year of the Child?"

LANCE J. HOFFMAN, associate professor of engineering and applied science, chaired a workshop at Asilomar Conference Center, Pacific Grove, Calif., February 25-28, on computers and privacy in the next decade.

DONNA S. LIND, visiting assistant professor of health care administration, participated in a two-day invitational conference on the Evaluation of Case Management Programs, sponsored by the National Institute of Mental Health, at Cedars-Sinai Medical Center in Los Angeles, March 5-6.

LENORE D. MILLER, curator of art, Dimock Gallery, coordinated a regional exhibition, "Label: Women," sponsored by the Women's Caucus for Art, Washington Chapter. This exhibition, the first of its kind in Washington, was held January 30-February 28 in Federal Building 10A under the federal government's "Living Buildings" program. Curator Miller also edited and wrote the introduction to Label: Women, the catalogue published in connection with the exhibition.

JOHN N. PEARCE, adjunct associate professor of urban planning and American civilization, was a member of a panel on "The Nation's Cultural Resources" on February 12 at a conference in Washington on National Historical Parks and Cultural Resources, sponsored by the National Parks and Conservation Association.

PHILIP N. REEVES, professor of health care administration, has been appointed to an HEW national advisory committee concerning health planning methods. The first meeting was held February 15-16. On January 25, Dr. Reeves conducted a one-day seminar on local policy development and policy analysis for health planning in Columbus, Ohio. The seminar was attended by representatives of all health planning agencies in Ohio. On February 23, he served as presiding officer at an educational session of the American College of Hospital Administrators in Chicago. Dr. Reeves presented a paper on data needs for health services planning at the March 1 meeting of the Federal Statistics Users conference.

BOARD OF TRUSTEES ACTION -- The Board of Trustees, at its March 15 meeting, increased the financial aid which accompanies the university's honors scholarships. The honors scholarships, established seven years ago, are awards made to students across the nation based solely on academic ability. The amount, originally set at up to $1,000 annually, will now be one half of the regular tuition charge for any semester, beginning in the fall of 1979. The number of awards will remain unchanged at 40.

ACADEMIC OPEN HOUSE -- The second annual Academic Open House, sponsored by the Columbian College Peer Advisers, the Admissions Office, and GWUSA, is scheduled for Friday, March 30, from 10 a.m. to 2 p.m. in the Marvin Center Ballroom. Faculty and students are invited to attend this all-university event.

The Academic Open House gives undergraduates the opportunity to seek information and advice from faculty and staff on matters such as choosing a major, selecting fall semester courses, applying to graduate school, and making vocational decisions. Tables will be set up for each Columbian College department and for representatives from the School of Government and Business Administration, the School of Public and International Affairs, the School of Engineering and Applied Science, the School of Education and Human Development, the Division of Experimental Programs, the Summer Sessions Office, the Fellowship Information Center, and the Career Services Office. Questions about graduation requirements can be answered by Lorraine Bryant of the Registrar's Office. Information on foreign study will be provided by Columbian College Assistant Dean Joseph L. Metivier.

A Transfer Day is being sponsored by the Admissions Office this year in conjunction with the open house.

For further information about the Academic Open House, call Lois Goldberg, ext. 3753.

HEALTH FAIR, THURSDAY, APRIL 5 -- An all-day health fair providing free health screening for community residents and workers will be held by the George Washington University Medical Center on Thursday, April 5, at the GW Health Plan offices at 1229 25th Street, N.W.

The health fair, to run from 10 a.m. to 6 p.m., is part of an area-wide health fair week sponsored by WRC-TV, WRC-AM, WKYS-FM and Peoples Drug Stores in conjunction with the National Health Screening Council and the United Black Fund. Individuals will be screened for existing or

potential medical problems. The fair will not attempt to provide treatment, but is intended to alert individuals to any medical problems they might not be aware of.

Anyone over age 18 may attend. All members of the university community are encouraged to take advantage of this free program.

SPRING DANCE CONCERTS -- Dance works choreographed by guest artists Beverly Brown, Les Ditson, and Norman Walker will be performed by GW students in dance at the annual Spring Dance Concerts, Friday and Saturday, April 20 and 21, at 8 p.m. in the Marvin Theater.

The program for the concerts will include "Life in a Drop of Pond Water" by Beverly Brown, former soloist with the Erik Hawkins Dance Company. "Variations from Day to Day" by Norman Walker, restaged for GW students by Barbara Katz of the Dance Notation Bureau, includes seven solos based on the poem "Saturday's Child." Les Ditson, artistic director for the Great Chazy Dance Company in Philadelphia, has choreographed an excerpt from his "Perennials," using the music of Bach's Brandenberg Concerto.

Call Barbara Kaptain or Maida Withers, ext. 6577, for further information.

Monday, April 9, 1979 (152)

BLUE CROSS/BLUE SHIELD OPEN ENROLLMENT PERIOD -- There is an open enrollment period for Blue Cross/Blue Shield from Monday, April 9, through Friday, April 20. All full-time employees have the opportunity to expand their coverage or to enroll for coverage during this time. Three types of coverage are now available through Blue Cross/Blue Shield: preferred coverage-surgical medical; extended coverage; and usual, customary and reasonable coverage (UCR). Formerly, only preferred coverage was available. The university is one of the few private employers in the District of Columbia to offer its employees the opportunity to select health care coverage according to their needs.

Between now and April 20, it is also possible to make changes or to enroll in the Health Maintenance Organization (HMO) programs currently offered by George Washington and Georgetown University. The effective date of changes in coverage and for beginning coverage in all the programs is June 1.

The maternity coverage has been revised in accordance with the new Pregnancy Disability Act passed by Congress. This revision allows for charges incurred for pregnancy to be paid on the same basis as any other illness. For those currently enrolled in the university's Blue Cross/Blue Shield Family Coverage, this revision will increase costs $1.12 a month. The Major Medical and Disability programs have added the maternity coverage at no extra cost to those enrolled. (The Health Maintenance Organization programs already have maternity coverage.) The new maternity coverage benefit will be effective April 29.

During the open enrollment period, informational meetings will be conducted by Blue Cross/Blue Shield and HMO representatives. The schedule is as follows:

Monday, April 9, 2 to 3:30 p.m., Hospital Auditorium

Tuesday, April 10, 10 to 11:30 a.m., Room 426, Marvin Center

Tuesday, April 10, 3 to 4:30 p.m., Hospital Auditorium

Thursday, April 12, 2 to 3:30 p.m., Room 426, Marvin Center

Monday, April 16, 10 to 11:30 a.m., Hospital Auditorium

Monday, April 16, 2 to 3:30 p.m., Room 426, Marvin Center

Wednesday, April 18, 10 to 11:30 a.m., Room 402, Marvin Center.

For information, call Records and Benefits, Personnel Services, exts. 4480, 4474 or 4486. Employees who wish to enroll or to change their coverage are requested to visit the Records and Benefits office at 2125 G Street.

BANNER ON WOODHULL HOUSE -- The green and white banner currently flying at the university's historic Woodhull House is one of some 40 placed throughout Washington in conjunction with the exhibition "Buildings Reborn: New Uses, Old Places" at the Smithsonian's Renwick Gallery. The exhibition, to remain in the Renwick through August 12, documents through photographs and accompanying text, the new life that has been given to old structures in the United States through adaptive re-use. A group of preservation leaders from the public and private sectors was formed in Washington to broaden the impact of the exhibition and it was this group which requested university permission to place the banner on Woodhull House. The house, built in the early 1850s, was willed to George Washington University by its owner, the late General Maxwell Woodhull. It now houses the Student and Alumni Career Services Office and the Safety and Security Office. Its exterior was carefully restored in 1975. Other buildings being bannered include the National Portrait Gallery, the Octagon House, St. John's Church Parish House, and the Arts Club of Washington.

BLOOD DRIVE REMINDER -- The university-sponsored Red Cross Blood Drive is scheduled for Tuesday, April 17, in the Marvin Center Ballroom. For appointments, call ext. 6555. For questions about blood donor eligibility, call the Red Cross at 857-3767.

PHILLIP D. GRUB, Aryamehr professor of multinational management, an article, "Multinational Corporations in the World Economy: Outlook for the Future," Revista, February 1979.

PROFESSIONAL ACTIVITIES

RODERICK S. FRENCH, associate professor of philosophy, and JOHN N. PEARCE, adjunct associate professor of urban planning and American civilization, were invited by the National Trust for Historic Preservation to participate in a national conference, "Preservation: Toward an Ethic in the Eighties," held March 14-17 in Williamsburg, Va. Professor French, whose paper "A Preservation Philosophy" was distributed to all participants as part of the background material, participated in the task force on legislation. Professor Pearce participated as a member of the task force on education. The results of the conference are to be published in book form.

DENNIS E. GALE, assistant professor of urban and regional planning, participated in an invitational symposium on neighborhood reinvestment sponsored by the Federal National Mortgage Association in Washington on March 6. Professor Gale discussed his research on housing mobility in reinvestment neighborhoods.

PHILLIP D. GRUB, Aryamehr professor of multinational management, gave the keynote address entitled "The Present and Future Role of Multinational Corporations in the World Economy" at the opening of the new Graduate School of International

Management at Chung-Ang University in Seoul, Korea on March 21. The next day he discussed current trends in international business operations with students of business and economics and, on March 23, conducted a seminar for Korean professors on new trends in university education in international business. Professor Grub addressed students from 17 Latin American countries on the subject of "Multinational Corporations in the World Economy: Outlook for the Future" at the Inter-American Defense College on February 21.

MURLI M. GUPTA, adjunct assistant professor of mathematics, presented a paper entitled "On the Accuracy of Viscous Flow Approximations and Solutions" at the Second International Conference on Computational Methods in Nonlinear Mechanics held at the University of Texas in Austin on March 26. The conference was sponsored by the Texas Institute for Computational Mechanics.

MONROE S. HURWITZ, bookstore manager, was a winner in The College Store Journal's Pick/Promote/Profit competition sponsored by the National Association of College Stores, Inc. Mr. Hurwitz's award-winning idea brought the university mascot, a costumed George Washington, to greet bookstore customers during registration.

EDWIN P. KULAWIEC, associate professor of education, gave a slide-tape-film presentation entitled "Janusz Korczak - A Man for All Times and Places" at American University on March 21. The presentation, given at the invitation of the Polish-American Arts Association of Washington and the B'nai B'rith Hillel Foundation, was part of the International Year of the Child celebrations.

BANNER PLACED -- Bervil Wells secures the "Buildings Reborn: New Uses, Old Places" to the side of Woodhull House. Woodhull is one of 40 buildings in Washington chosen to be marked as examples of adaptive reuse of old buildings in conjunction with an exhibition of photographs in the Smithsonian's Renwick Gallery which is to remain through August 12.

YOUR SMOKE COULD INTERACT

Tobacco products should not be used in situations where employees may be exposed to physical or chemical substances which may interact with the tobacco products, according to the National Institute for Occupational Safety and Health. NIOSH also says that there is increasing evidence that smoking can act in combination with hazardous agents to produce or increase the severity of a wide range of adverse health effects. Additional information may be obtained from NIOSH Bulletin 31 which is available at the Office of Safety and Security.

OPEN ENROLLMENT REMINDER

The open enrollment period for Blue Cross/Blue Shield ends Friday, April 20. Those who wish to enroll or to change their health care coverage with either Blue Cross/Blue Shield or the Health Maintenance Organizations must do so before Friday. Enrollment applications and change of coverage forms are available at the Records and Benefits Office at 2125 G Street, N.W., ext. 4480 or ext. 4474.

TRAVELERS TAKE HEED

The administrative budget committee of the university, at a recent meeting, approved an increase in the mileage rate for those on official university travel from 15¢ to 17¢ per mile. The increase is effective May 1.

DON'T FORGET THE BLOOD DRIVE

The university-sponsored Red Cross Blood Drive is Tuesday, April 17, in the Marvin

Center Ballroom. For information, call ext. 6555.

COLONIALS DINNER
The Colonials, Inc. 21st Annual Sports Awards Dinner will be held in the Marvin Center Ballroom Wednesday, April 18, with cocktails at 6:30 p.m. and dinner at 7:15. The yearly event is held to honor intercollegiate athletes at George Washington. Members of the university faculty and staff are welcome. Tickets are on sale for $11 each. Those who cannot attend may wish to sponsor one or more athletes as their guests. For information, call ext. 6650.

MOON OVER THE POTOMAC
The General Alumni Association and the Alumni Relations Office are sponsoring a year-end moonlight cruise for seniors on Sunday night April 22, from 8 to 11 p.m. Tickets (available at Alumni House, 714 - 21st Street, N.W.) are $7 for a senior and one guest. This includes a swinging band and food. Liquid refreshment is extra. After Tuesday, April 17, any tickets left will go on sale to the whole student body at $10 per ticket. The boat will leave promptly at 8 p.m. from the Washington Boat Line Pier at Maine Avenue and 6th Street, S.W. For further information, call ext. 6435.

VERNACULAR ARCHITECTURE WORKSHOP
"New Approaches in Recent Research" is the title of the one-day workshop on vernacular architecture scheduled for Sunday, April 22, between 9:45 a.m. and 4 p.m. in the Marvin Center. Sponsored by the university's Graduate Program in Historic Preservation, the workshop is open to students for $5 with ID. The fee for all others is $10. For further information, call ext. 6098.

PUBLICATIONS

LEONARD NADLER, professor of education, and Chip Bell, co-editors, The Client Consultant Handbook, Gulf Publishing Co., 1979.

PROFESSIONAL ACTIVITIES

ANDREA FARBMAN-MORRIS, project coordinator, Therapeutic Recreation Paraprofessional Training Program, presented a paper on "The Model Curriculum Developed at GWU" for the National Conference on the Training and Utilization of Paraprofessionals in Educational Programs for the Handicapped in Austin, Texas April 4.

LANCE J. HOFFMAN, associate professor of engineering and applied science, spoke on "Computer Security Risk Analysis" at the Ninth Annual Virginia Computer Users' Conference held at Virginia Polytechnic Institute and State University April 6-7.

BERNARD M. MERGEN, associate professor of American civilization, presented a paper entitled "Riesman Redux: Football as Work, Play, Ritual, and Metaphor" at the Fifth Annual Meeting of the Association for the Anthropological Study of Play in Henniker, N.H. on March 29. The association is a group of anthropologists, recreation professionals, and historians interested in the cultural dimensions of play. Dr. Mergen was elected to the association's Executive Council at the March 29 meeting. On April 3, Dr. Mergen gave a lecture on "Reading Photographs Between the Lines: How to Interpret the Photographic Image" at the Delaware Art Museum in Wilmington. The

lecture was part of a program entitled "Delaware Remembered: Family Life 1890-1940" and was sponsored by the National Endowment for the Humanities.

AHMED K. NOOR, professor of engineering and applied science, presented a paper entitled "Global Local Finite Element Method for Nonlinear Dynamic Analysis of Structures," and also chaired a session at the Second International Conference on Computational Methods in Nonlinear Mechanics held in Austin, Texas March 26-29.

SPECIAL EDITION FOR FRIDAY, APRIL 20, 1979

The University is shocked and saddened by Thursday morning's fire in Thurston Hall President Elliott said today. "We are taking every step to address the concerns and to alleviate inconveniences to students and their families in the aftermath of this unfortunate event."

HOW THE FIRE STARTED

The cause of the fire is still under investigation by the Hartford Insurance Company and by the District of Columbia Fire Department.

RECOVERY EFFORTS

The staff of the Division of Student Affairs, the Security force, and the Physical Plant group have been working continuously to ameliorate, insofar as may be possible, the effects of the fire of April 19 in Thurston Hall and to provide support to shaken students and to restore order. Spaces in other halls have been provided for students whose rooms were damaged by the fire and others who wish to be relocated. We plan clean-up efforts through the weekend, and it is hoped that students wishing to return to their rooms on the fifth floor may do so by Wednesday.

The residence hall staff has worked around-the-clock counseling students affected by the trauma. The staff of the university's Counseling Center has expanded its hours to accommodate those in need of assistance, and extra security has been placed in Thurston to provide support as well as to control the traffic flow.

FROM THE PROVOST'S OFFICE

It should be noted that this type of traumatic experience has different effects on individual students. Some have lost papers, textbooks, and other materials which they will need in preparing for final examinations. Dr. Bright encourages all members of the faculty to make every effort toward helping individual students to finish their academic programs. Some were injured and will need to delay completion of their work. The majority should be helped and encouraged to complete their programs on time. Students should be carefully advised of the difficulties generally encountered by those taking four or five Incompletes to conclude a semester.

FROM THURSTON HALL

The Housing Office reports that the District of Columbia occupancy code allows in excess of 1,000 residents in Thurston. At the time of the fire, 890 students were assigned to the building's rooms and suites.

ABOUT THE CODES

Thurston Hall is in compliance with every aspect of the D.C. Building Code, the D.C. Housing Code, and the D.C. Fire

Regulations. Some of Thurston's fire retardant features follow. The building has solid masonry dividers between rooms and from floor to floor and has two enclosed, interior fire towers as required by the code. Last summer room doors and door frames were recoated with two coats of fire retardant paint. Application of the paint was approved and was inspected by the District government. The paint worked as it should have. Except in the immediate area of the flames, it foamed off and left exposed the original fire retardant paint applied when the university acquired Thurston. Thurston's all-wool carpeting has a low flame-spread rating. Except for one spot where the fire was intense, there was no combustion of the carpet or the Ormalon-type underpadding. Very little vinyl melted from the vinyl-covered fiberglass ceilings; the fiberglass did not burn. A new alarm system was recently installed in accordance with existing codes.

ABOUT SMOKE DETECTORS

The D.C. Smoke Detector Act of June 20, 1978, gives the university three years to install smoke detectors in all sleeping rooms. The installation is being designed and will be contracted for this summer. It will be completed in the fall of 1980 in all residence halls at GW -- a year ahead of the required time. The D.C. Building Code does not require a sprinkler system in dormitories.

WHAT ARE WE DOING TO STOP FALSE ALARMS?

Last November students in Thurston Hall were given written notice of the dangers of false alarms from the Office of Safety and Security. Students caught turning in a false alarm are expelled from university housing. In the past two years, six students have been turned out of housing for this offense.
Residence Hall staff, in floor meetings and in small group meetings, have attempted to communicate the seriousness of this offense. To curtail disruptive behavior, effective last November, an additional guard was assigned to patrol Thurston Hall from midnight to 8 a.m.

Dean Allee

Dean Long

SUMMER SESSIONS, UNIVERSITY STUDENTS DIVISION TO BE COMBINED

Effective July 1, the Division of University Students and the Summer Sessions will be combined as the Division of University and Summer Students. Summer Sessions Dean William F.E. Long will serve as dean. University Students Dean John G. Allee will go on sabbatical leave for the fall semester to pursue research and will return to the university in the spring of 1980 to continue as professor of English.

Dean Long has been summer sessions dean since 1974. He is also professor of economics. A George Washington alumnus, (BA '46, MA '47, PhD '67), Dr. Long taught at the University of Maryland and at North Carolina State University at Raleigh. He became associated with the university in 1964 as assistant professor of economics and served as assistant dean of the Columbian College of Arts and Sciences and as secretary for the Columbian College faculty. From 1967 to 1974, he was assistant dean of the Graduate School of Arts and Sciences.

In his career as an economist, Dr. Long was associated with Allegheny Airlines as head of its economic planning department, with the Electronic Industries Association (Washington, D.C.) as chief economist and later as consultant, and with the Philco Corporation as manager of the microelectronics division with responsibility for marketing, manufacturing, and research and development. He was consultant for a year to the National Endowment for the Humanities and has been a member of the editorial board of American Economist.

Dean Allee has served as dean of the division of university students since 1962 and prior to that was assistant dean (1953-1958) and associate dean (1958-1962). An alumnus of the university (BA '39, MA '40), Dr. Allee received his PhD from The Johns Hopkins University in 1955. Following four years of teaching at Johns Hopkins, he first became associated with the English Department in 1949 as assistant professor and has served continuously since that time. Widely known for his study of place names in Iceland, he received a Fulbright Research Grant in 1961 and an Evening Star Grant in 1964. He is

also known for his translations of ancient Norse sagas. In 1963 he was president of the College English Association, Middle Atlantic Group. A member of national and international linguistic societies, he has served as president of the District of Columbia chapter of the American-Scandanavian Foundation. He is currently president-elect of GW Friends of the Libraries. In 1974, Dean Allee received an award from the General Alumni Association in recognition of 25 years' service as a faculty member.

HAVE YOU STUDIED OR TAUGHT OVERSEAS?

The Undergraduate Admissions Office is interested in developing a resource list of faculty members who have either studied or taught in a foreign university. Such faculty could give valuable assistance in evaluation of records and in understanding current academic situations in foreign systems. Call or write Doris Johnson or Charles Prosser at the Undergraduate Admissions Office, Rice Hall, 2nd Floor, exts. 6045 and 6054, giving your name, department, telephone extension, and names of the foreign institutions.

UNIVERSITY LIBRARY CLOSES FOR INVENTORY

The University Library will be closed for eight days, from Sunday, May 6, through Sunday, May 13, for an inventory of the book collection. This project, begun in the spring of 1974, involves checking books on the shelves against shelf lists and the removal from the catalog of cards for books which have disappeared over the years.

Telephone inquiries can be handled during the inventory period, but, to the extent possible, library users are requested to use library services before Sunday, May 6.

The University Library will reopen on Monday, May 14, and will then be on summer hours: Sundays, 12 noon to 10 p.m.; Mondays through Thursdays, 8:30 a.m. to 10 p.m.; Fridays, 8:30 a.m. to 6 p.m.; and Saturdays, 12 noon to 6 p.m.

DILTHEY FELLOWSHIPS ANNOUNCED

The 1979 recipients of the Dilthey Fellowships for Interdisciplinary Scholarship are Professor of Sociology Patricia M. Lengermann, for research on the rise of the Chicago School of sociology, and Associate Professor of European History R. Emmet Kennedy, for study of the cultural history of the French Revolution. The fellowships, administered by the Division of Experimental Programs, carry stipends of $2,500 and provide the recipients an uninterrupted period for research during the summer months.

SAGA SAILS IN

The Saga Corporation, a contract food service and restaurant company with operations in more than a thousand locations throughout North America, will operate the university's food facilities for the coming year. Vice President and Treasurer Charles E. Diehl has approved the recommendations of the staff and the Joint Food Service Board Committee to engage SAGA.

The corporation will offer complete food service management, including operations of the contract dining rooms, the first-floor cafeteria of the Marvin Center, the Rathskeller and catering service for the entire university. (The hospital cafeteria and food service operations will not be changed.)

Three meal plans will be offered in resident dining rooms in fiscal year 1979-80: a 19-meal plan; any 14-meal plan; and any 10-meal plan. One of the three food plans will be mandatory for resident freshmen and sophomores. A cash equivalency program will be continued and Mitchell Hall dining room will remain open next year.

SAGA will begin taking over the food service on Monday, May 7.

COMMENTARY

Jon Keates

METAMORPHOSES

It has been observed that the relations of the University with the alumni are a kind of penance for the University's sins. If this is true, then the results of a questionnaire circulated recently among seniors by the Alumni Relations Office suggest that this office has sinned generously.

An alarming number of those seniors who returned the survey indicated little interest in attending reunions, in participating in regional continuing education programs, or in contributing to the Annual Support Fund. While these responses are disturbing, they are certainly not surprising. They sound an ominous note for an independent university like GW, whose well-being is determined largely by the generosity of alumni.

All of this presents the Alumni Relations Office--which is charged with the responsibility of involving alumni in the affairs of the University--with a congeries of problems. And although perceptions acquired over four years cannot be altered overnight, it might be useful to outline a few of the programs offered by this office designed to trigger your interest as you complete the metamorphosis from undergraduate to alumnus.

First, as an alumnus of George Washington, you have access to the University library and to the Charles E. Smith Center on weekends during the regular academic year--for no fee. Second, we have introduced an alumni course audit program. For a small fee ($20) you may audit a number of courses offered by some of the University's most engaging lecturers. Third, through programs like the Encore Series (lectures given by faculty emeriti), the First Wednesday Lectures (delivered by members of the faculty on the first Wednesday of each month through the academic year), and continuing education programs on topics varying from the Middle East to 19th-Century French painting, you can continue your acquaintance with the intellectual vitality of the University.

In addition, the Alumni College offered for four days each summer provides an opportunity to explore a mini-course on topics as varied as bioethics, cultural alienation, or the energy crisis. You may opt for our opening night theater program or you may wish to accompany GW faculty and alumni on a trip to Prague, or Dublin, or Delphi.

A number of these programs appeal to the almost 38,000 GW alumni who live within the metropolitan area, but another 40,000 are scattered across the country. Should you join the exodus from Washington after graduation, be assured that programs involving University faculty are held in most major cities. During the 1979-80 academic year, for example, programs are planned from New York to San Francisco; from Chicago to Phoenix.

The Alumni Relations Office is planning a number of programs for 1979-80 intended to improve the quality of undergraduate life at the University. To this end, an alumni officer is soon to be appointed whose principal responsibility will be student-alumni relations. Working in conjunction with a number of other offices within the Univeristy, we hope to increase the number of contacts between alumni and undergraduates, especially in the area of employment planning. By wedding undergraduate needs to alumni resources, perhaps we can explode stereotypes that are part of undergraduate (as well as alumni) mythology.

-more-

Hickman once characterized Yale alumni as "sullen, but not mutinous." GW alumni are hardly sullen; they are engaged, they provide the continuity that perpetuates this institution, they are the index of its accomplishments. As our most valuable resource, we look forward to your support and your counsel.

Jon Keates
Director, Alumni Relations

Alumni House
714 21st St. NW

A FEW MORE DAYS FOR OPEN ENROLLMENT

Due to the tremendous response from employees making changes in their health insurance coverage, the university is extending the open enrollment period through the close of business Wednesday, April 25, at 5 p.m. For further information, call ext. 4480.

A NEW MONDAY REPORT DEADLINE

Material for The Monday Report must be received in the Office of Public Relations, 705, University Library, by 12 noon Tuesday for the following week's issue.

faculty newsnotes

PUBLICATION

GUIDO E. MAZZEO, professor of romance languages, a book review in Hispania, vol. 62, March 1979, of Literatura popular en Espana en los siglos XVIII y XIX, by Joaquin Marco, 2 vols., Madrid, Taurus, 1977.

PROFESSIONAL ACTIVITIES

ELIZABETH L. JOHNS, associate director for management of the Institute for Educational Leadership, was elected president of the Speech and Hearing Association of Virginia on April 3.

PHILIP KEARNEY, associate director for state programs at the Institute for Educational Leadership, spoke on "State-Wide Minimum Competency Testing Issues" at the first Annual Oklahoma Conference on Education held in April.

EDWIN P. KULAWIEC, associate professor of education, participated in the Paris UNESCO colloquium entitled "Janusz Korczak in the World Today" at the invitation of the French Association of the Friends of Janusz Korczak. Guests from 13 countries participated in the colloquium. Professor Kulawiec, who has been appointed U.S. delegate on the International Janusz Korczak Committee, discussed "Janusz Korczak in the Context of Contemporary American Realities" at the April 5 session in the Palais de l'UNESCO.

GUIDO E. MAZZEO, professor of romance languages, attended the regional meeting of the President's Commission on Foreign Language and International Studies held in Raleigh under the sponsorship of North Carolina State University, April 12-13. Representatives from foundations, international organizations, and labor as well as educators, state and county officials, and U.S. congressmen discussed issues in the study of foreign languages and cultures. The meeting generated recommendations to the President's Commission, which presently is formulating national policy for the study of foreign languages in America.

-more-

BERNARD M. MERGEN, associate professor of American civilization, has been appointed to the Regional Advisory Committee of the Archives of American Art at the Smithsonian Institution.

AHMED K. NOOR, professor of engineering and applied science, presented a paper entitled "Reduced Basis Technique for Nonlinear Analysis of Structures" at the AIAA/ASME/ASCE/AHS 20th Structures, Structural Dynamics and Materials Conference in St. Louis, April 4-6.

SUSAN J. TOLCHIN, associate professor of public administration, was a participant on fellowship at the Aspen Institute for Humanistic Studies Executive Seminar, March 13-24.

BARBARA A. VON BARGHAHN, assistant professor of art, lectured on the workshop of El Greco at the Middle Atlantic Symposium on the History of Art held at the University of Maryland, March 31.

GRANTSMANSHIP

ALISON S. BROOKS, assistant professor of anthropology, a $43,147 training grant for pre-college teacher development in science, from the National Science Foundation.

RAYMOND S. COTTRELL, professor of special education, a $205,000 research contract for a Mid-East regional resource center, from the Bureau of Education for the Handicapped/OE/DHEW.

ALLAN K. FITZSIMMONS, assistant professor of geography and regional science, a $21,426 training grant for a summer course for secondary school science teachers in environmental education, from the National Science Foundation.

EDMUND P. HARPER, visiting assistant professor of physics, DONALD R. LEHMAN, associate professor of physics, and FRANCISCO PRATS, professor of physics, a $39,991 research contract to investigate the structure and electromagnetic interactions of few-body systems, from the Department of Energy.

KHALID MAHMOOD, professor of engineering, a $53,251 research grant to study the mechanics of alluvial channels on the Link Canals in Pakistan, from the National Science Foundation.

HENRY SOLOMON, dean of the Graduate School of Arts and Sciences, a $21,066 research grant for the biomedical sciences support grant program, from the Division of Research Resources/NIH/PHS/DHEW.

JEFFREY L. STRULLEY, project director of the Regional Rehabilitation Research Institute: Institute on Attitudinal, Legal, and Leisure Barriers, a $60,759 research grant for a national conference to set research priorities in recreation for the disabled, for key leaders in the fields of disability, recreation and research, from the Rehabilitation Services Administration/OHD/DHEW.

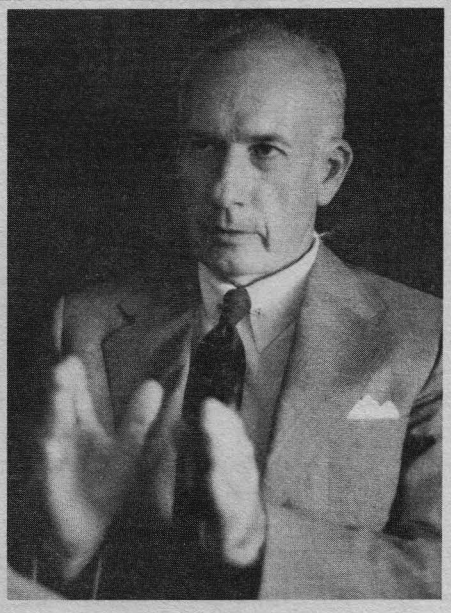
FROM PRESIDENT ELLIOTT



I would like to take this opportunity to commend the courageous and heroic behavior of Thurston Hall residents, residence hall staff, and GW security officers, as well as D.C. police and fire fighters involved in last Thursday's evaculation. I further want to thank those employees of Physical Plant's Housekeeping and Operations staff, Safety and Security, the Housing Office, the Hospital staff, the Dean of Students' Office, the Counseling Center, and the Student Health Service who worked long hours to aid those involved in the fire. Many students -- both individuals and members of organizations -- came forward to offer their assistance in answering phones, providing blankets, and escort service. Faculty, staff, alumni, and friends of the community have also called and volunteered their assistance. For all this, we are grateful.

Although 6 Thurston residents remained hospitalized Thursday, I can report that hospital spokesmen say the patients are making satisfactory progress.

Cleaning and repair of the fifth floor of Thurston continues. The south and east corridors were ready for occupancy last Wednesday afternoon; north and west corridors are undergoing additional repair and we will not be reopening them this semester.

The cause of the fire has not yet been determined. District of Columbia police and fire personnel and the Hartford Insurance Company are continuing their investigation with the full cooperation of the university.

I greatly appreciate the efforts of all sectors of the university community in pulling together as we return to more routine operations following this emergency. The doors of the university staff, as well as my own, remain open to anyone experiencing difficulties as a consequence of the fire.

THE EIGHT SPRING COMMENCEMENTS

Approximately 2,600 people will receive degrees at the university's eight spring commencements on Sunday, May 6, Sunday, May 20, and Friday, May 25.

The ceremonies of SGBA, GSAS, Columbian College, Engineering, Public and International Affairs, and Education are scheduled for May 6, with the National Law Center on May 20, and the School of Medicine on May 25.

At the School of Government and Business Administration (1 p.m., Sunday, May 6, in the Charles E. Smith Center) Lee Anthony Iacocca, president and chief operating officer of the Chrysler Corporation, will speak and will receive the honorary degree of Doctor of Public Service. A degree of Doctor of Public Service will also be conferred on Dr. Fernando Belaunde-Terry, former president of Peru, and former visiting professor of urban history and planning.

Graduate School of Arts and Sciences speaker will be Dr. Lisle C. Carter, Jr., president of the University of the District of Columbia. He will receive the honorary degree of Doctor of Laws (1:30 p.m., Sunday, May 6, Lisner Auditorium).

Colin M. Turnbull, visiting professor of anthropology, will deliver the address at the Columbian College of Arts and Sciences (4 p.m., Sunday, May 6, Smith Center). Student speaker will be Scott Lee Levin who will receive the Bachelor of Arts degree with a double major in political science and speech communications and broadcasting. Honorary degrees of Doctor of Public Service will be conferred on Frederick Gutheim, nationally known urban specialist, and Charles E. Smith, Washington realtor and builder. Two faculty members will be awarded emeritus status: Carl H. Pfuntner, associate professor emeritus of philosophy, and Robert C. Vincent, professor emeritus of chemistry.

Harold A. Wheeler, chief scientist, director, and chairman emeritus of the Hazeltine Corporation, will speak to graduates of the School of Engineering and Applied Science (4:30 p.m., Sunday, May 6, Lisner Auditorium).

Hodding Carter III, assistant secretary of state for public affairs, will speak at the commencement of the School of Public and International Affairs (6 p.m., Sunday, May 6, Marvin Theater). Senior class speaker will be Robert A. Zuccaro who will receive the Bachelor of Arts degree in public affairs.

School of Education and Human Development graduates will hear Bryan T. Gray, chief of the Guidance and Counseling Branch of HEW's Office of Education (7:30 p.m., Sunday, May 6, Lisner Auditorium).

The Honorable Wade Hampton McCree, Jr., solicitor general of the United States, will deliver the address at the National Law Center exercises (1:30 p.m., Sunday, May 20, Smith Center) and will receive the honorary degree of Doctor of Laws. The honorary degree of Doctor of Laws will also be conferred on Charles E. Phillips, chairman of the board of the Equitable Life Insurance Company. Mrs. Laura E. Phillips will receive the honorary degree of Doctor of Humane Letters. The status of professor emeritus of law will be awarded to Harold P. Green, W. Wallace Kirkpatrick, (who will be retiring as associate dean on June 30), and Robert Kramer (who will retire as dean on the same date).

Former Florida Congressman Paul G. Rogers will address graduates of the School of Medicine and Health Sciences (Friday, May 25, 3:30 p.m., Lisner Auditorium). Two emeritus awards will be made: Dr. James J. Feffer, professor emeritus of clinical engineering and of medicine; and Dr. Roy Hertz, professor emeritus of research pharmacology.

GEORGE WASHINGTON AWARDS TO BE GIVEN

The George Washington Awards, established in 1976 to recognize outstanding contributions in any area of the university by students, faculty, and staff, will be presented for the third time at the spring commencements of 1979. Seven individuals, six students and one faculty member, have been selected to receive awards this year. Award recipients are David A. Chapin, Columbian College senior; Philip L. Deitch, graduate student in health care administration in SGBA; Dana L. Dembrow, third-

year law student and editor of The Advocate; Roberta S. Goldberg, graduate student in international affairs in SGBA; Richard Lazarnick, Columbian College junior; Thomas A. Quinn, SGBA senior; and Professor of Chemistry Robert C. Vincent.

HEALTH INSURANCE DEDUCTION SCHEDULE CHANGE

Due to a change in billing procedures, deductions for group hospitalization insurance will now be taken only one month in advance from the paychecks of participating employees, the Payroll Office has announced. (This change applies to Blue Cross/Blue Shield and all the HMOs.) In accordance with the change, participating employees who are paid monthly will not have deductions taken from their April 30th paychecks.

KENNEDY CENTER GOODBYE, AND SUMMER PARKING HELLO

Friday, May 4, is the last day for student/staff parking at the Kennedy Center. Staff members interested in on-campus parking for summer should contact the Parking Office. Summer permits for both monthly and occasional parking will be issued on a first-come basis starting Tuesday, May 1. "Summer only" parking is available to both full-time and part-time employees. For information, call ext. 6504.

ANONYMOUS DONOR MAKES AMENDS

The following unsigned letter was received in the Development Office on April 18:

> "Enclosed is a Postal Money Order in the amount of $120 to be used as a contribution to the George Washington University Annual Fund. This money order represents the amount of money that I took from a file cabinet in the Engineering School more than 10 years ago.
>
> I have been sorry all of these years that I took the money and I return it to you as part of my own repentance for the theft."

faculty newsnotes

PUBLICATIONS

THEODORE P. PERROS, professor of chemistry and forensic sciences, an article, "Forensic Chemistry," which appears in the Kirk-Othmer Encyclopedia of Technology, 3rd Ed., Wiley and Sons, Inc., New York.
--------- an article, "Forensic Sciences," AHEPAN Magazine, April 1979.

PROFESSIONAL ACTIVITIES

WILLARD E. CALDWELL, professor of psychology, participated in a workshop on "Body Image: Development, Identity, and Exploration," sponsored by the D.C. Occupational Therapy Association, held at the Martin Luther King Library on March 30-31. Dr. Caldwell spoke primarily on "The Genesis of Identity: The Origin and Evolution of Consciousness, Self, and Body Image." He also conducted three workshops on quantitive projection and presented four somatic apperception techniques for measuring body images, techniques which were developed with four former graduate students: Allan Rowe, Nancy Adams, Creighton Mattoon, and Eleanor Gottesman.

LANCE J. HOFFMAN, associate professor of engineering and applied science, has been appointed to the National Crime Information Center Advisory Panel of the Office of Technology Assessment.

-more-

ROY C. LINDHOLM, professor of geology, addressed the Geology Department of James Madison University on, "Structural Geology and Sedimentology of the Culpeper Basin, Virginia," March 21.

GARTH P. McCORMICK, professor of applied science, was invited to Carnegie-Mellon University in Pittsburgh to speak to faculty and students of the Graduate School of Industrial Administration on April 18 on the topic "Evaluating Strategies for Newton's Method Using a Numerically Stable Generalized Inverse Algorithm."

JOHN D. MORRELL, assistant professorial lecturer in art, is exhibiting his French landscape paintings at the Georgetown Art Galler, 2611 P Street, N.W., through Saturday, May 12.

THOMAS G. NARBETH, reference librarian, demonstrated document ordering by computer as part of a program entitled "On-Line Information Retrieval and Document Ordering" sponsored by the District of Columbia Library Association, April 2.

JOHN N. PEARCE, adjunct associate professor of urban planning and American civilization, presented the keynote address, "Historic Preservation Today and Tomorrow," at a conference on historic preservation sponsored by Western Maryland College at Westminster on April 6. Professor Pearce also discussed "The Meaning of the Buildings and Objects of Our Past" at the annual meeting of the Order of First Families of Virginia, held in Washington on April 14.

THEODORE P. PERROS, professor of chemistry and forensic sciences, conducted a seminar for the Chemistry Department of the University of Maryland entitled, "Analysis of Physical Evidence," on March 23.

GRANTS

IRA H. CISIN, professor of sociology, a $179,198 research contract for a national survey of non-medical uses of prescription drugs in 1979, from the National Institute on Drug Abuse/ADAMHA/PHS/DHEW.

ANTHONY MARINACCIO, professor of education, a $48,966 training contract for mainstreaming students at Guantanamo Bay Schools in Cuba, from the Defense Supply Service/DOD.

ANTHONY J. MASTRO, professor of accounting, a $31,665 training contract to train SESA accounting system staff in the basic concepts and operation of the State Employment Security Agency (SESA) accounting system.

THE FINAL DAYS OF FINALS -- First-year law students (left to right) Brandon Fields, Blair Hall and Jon Isaacs study for a constitutional law final.

SUMMER HOURS AT SMITH CENTER
Summer hours for the Charles E. Smith Center, the swimming pool and the tennis courts for the period from Monday, May 7, through Sunday, August 26, follow.

The Smith Center

Mondays through Fridays
9 a.m. to 9 p.m.

Saturdays
10 a.m. to 6 p.m.

Sundays
1 p.m. to 6 p.m.

Swimming Pool

Mondays through Fridays
11 a.m. to 2 p.m. and 4 p.m. to 8 p.m.

Saturdays
10 a.m. to 5 p.m.

Sundays
1 p.m. to 5 p.m.

Tennis Courts
Two courts - main floor

Mondays through Fridays
9:30 a.m. to 8:30 p.m.

Saturdays
10:30 a.m. to 5:30 p.m.

Sundays
1:30 p.m. to 5:30 p.m.

Tennis court reservations can be made in person or by phone. Call ext. 6810.

Note: Auxiliary gymnasium 308 will be closed for resurfacing from Monday, May 7, through Thursday, June 14. All other facilities will be open as usual.

Families of full-time faculty and staff members can use the center for $50 per family for the entire summer. The policy of free use by faculty and staff continues throughout the year.

UNIVERSITY BOOKSTORE HOURS

Beginning Monday, May 7, the University Bookstore will go on summer hours: 8:45 a.m. to 5 p.m. Monday through Friday. This schedule will continue through Monday, September 10, except for special hours during registrations which will be announced. Thursday, May 14, hours will be 8:45 a.m. to 7 p.m. because of registration for the first Summer Session. Thursday, May 21, hours will be from 8:45 a.m. to 6 p.m. for registration for the first Summer Session of the National Law Center. The bookstore will be closed Monday, May 28, Memorial Day.

faculty newsnotes

PUBLICATIONS

JEROME A. BARRON, professor of law, and C. Thomas Dienes, co-authors, a book, Handbook of Free Speech and Free Press, Little, Brown and Co., 1979. The 750-page volume is the first new treatise on First Amendment law in 10 years.

WILLIAM B. GRIFFITH, associate professor of philosophy, a review essay, "The Political Economist: Friendly Persuader or Hired Gun?," Washington Review, Vol. 4, No. 6, April/May 1979.

JAMES WILLIS ROBB, professor of romance languages, an article, "Estilizacion de temas metafisicos en Alfonso Reyes," in Studies in Honor of Luis Leal, Insula, Madrid, 1979.

DAVID S. ZEIDBERG, curator of special collections, University Library, and Thomas D. Burney, co-authors of an article, "Proposed Guidelines: The Marking of Rare Books and Manuscripts," Antiquarian Bookman's Weekly, Vol. 63, No. 10, March 5, 1979.

PROFESSIONAL ACTIVITIES

HOWARD F. GILLETTE, JR., assistant professor of American civilization, presented a paper entitled "Toward a Research Agenda for Philadelphia's Tricentenary: The 19th Century" at a conference sponsored by the Urban Archives of Temple University, on April 20.

SAMUEL HALPERIN, director, Institute for Educational Leadership, has been elected to the National Advisory Council of the United Student Aid Funds.

SUSAN H. HERTZ, associate professorial lecturer in anthropology, and Thomas W. Hertz presented a paper, "An Assessment of the Use of Anthropological Perspectives in Ongoing Research on Children and Adolescents," at the biennial meeting of the Society for Research in Child Development held in San Francisco on March 15.

JOHN W. KENDRICK, professor of economics, participated in a panel on the causes of the recent productivity slowdown sponsored by the Society of Government Economists held at the Mayflower Hotel March 14. Dr. Kendrick spoke on "Key Variables for Increased Productivity" at a Pace University conference on March 22. He presented an "Overview of Company Productivity Improvement Programs" on April 9 at Utah State University in Logan. On April 19, Dr. Kendrick chaired and participated in a panel on "The Steel Industry in the 1980s" at a conference hosted by the GW School of Government

and Business Administration in conjunction with the American Iron and Steel Institute.

EMMET KENNEDY, associate professor of European history, commented on a session on "The Rescue of French Art from Revolutionary Vandalism" at the Consortium on Revolutionary Europe held in Charleston, S.C., on March 1. Dr. Kennedy co-directed a seminar on "The Theory and Practice of Education during the French Revolution" at the 25th annual meeting of the Society for French Historical Studies held in Pittsburgh April 1. On April 6, Dr. Kennedy presented a paper at a New York University colloquium on the "Irresistible Rise of Ideologies 1750-1870."

JAMES WILLIS ROBB, professor of romance languages, was a principal speaker and also presented a paper entitled "Variedades de Ensayismo en Alfonso Reyes y German Arciniegas," at a symposium on the 20th Century Spanish-American Essay held at Temple University, Philadelphia, on April 20. Professor Robb has also been named a member of the Editorial Board of the Boletin LOS ENSAYISTAS, a literary review devoted to the Spanish and Spanish-American essay and essayists, published at the University of Georgia in Athens.

ROBERT H. WALKER, professor of American civilization, has accepted the invitation of the Hoover Institution on War, Revolution and Peace in Stanford, California, to serve as a visiting scholar during a portion of his upcoming sabbatical year.

GRANTS

JOSEPH V. FOA, professor of engineering and applied science, a $30,000 research contract for cryptosteady-flow thrust generators, from the Office of Naval Research/DOD.

SAMUEL HALPERIN, director, Institute for Educational Leadership, a $3,750 training grant for a Washington policy seminar for professional-level employees of the National Institute of Education, from the National Institute of Education/DHEW.

RICHARD P. SEIFERT, assistant professor of biology, a $39,000 research grant to study the structure of mosquito-dominated Heliconia communities in mid-elevation Venezuelan forests, from the National Science Foundation.

A RETIRING LAW TRIO

These three men represent 51 years of service to the National Law Center: (1-r) Professor Harold P. Green, Associate Dean W. Wallace Kirkpatrick, and Dean Robert Kramer. Four hundred alumni and friends attended a retirement luncheon at the Mayflower Hotel's Grand Ballroom May 2 in their honor.

"For the last 18 years, Dean Kramer has been a most effective spokesman for the law school within the circles of the university," said President Elliott. "He is eloquent, articulate, and just plain stubborn."

A portrait of the dean by artist C. Gregory Stapko, presented at the luncheon, will hang in the Jacob Burns Law Library.

13 APPOINTED TO COMMISSION ON EQUAL OPPORTUNITY

President Elliott has recently appointed new members to the university's Commission on Equal Opportunity who are to serve for the next year. Cheryl Beil, assistant dean of students, is serving as chairperson. Commission members are Richard C. Bailey, manager, Medical Center Accounting; Linda Brandt, assistant professor, Department of Psychology; Willie Cooper, internal auditor, Internal Audit Office; Yvonne Douglas, associate director, Nursing Administration; Linda L. Gallo, assistant professor, Department of Biochemistry; Robert Goldfarb, associate professor, Department of Economics; Donald Linkowski, chairman, Department of Education; May Park, assistant manager, Medical Faculty Associates Business Office; Marcia Sleight, executive aide, Department of Political Science; Chariklia Spiegel, assistant professor, Department of Medicine; Andrea Stewart, director, Fellowship Information Center; and Perry Wallace, Jr., assistant director, Division of Experimental Programs.

The Commission on Equal Opportunity advises the president, the university's equal opportunity offices, and the director of personnel services on matters relating to the university's equal opportunity and affirmative action programs.

Approximately 2,100 degrees were conferred in six commencement ceremonies on Sunday, May 6.

THE ALUMNI COURSE AUDIT PROGRAM IS A WINNER

The Alumni Course Audit Program, created and administered by the Alumni Relations Office, with the cooperation of a select number of faculty, has been chosen for an Exceptional Achievement Award by the judges in the alumni relations category of CASE Recognition '79. The award will be presented at the national meeting of the Council for Advancement and Support of Education in July.

The non-credit, non-graded program, begun in the spring semester of 1977, provides GW graduates the opportunity to attend selected undergraduate, introductory-level courses as auditors at a nominal cost. The course-audit plan has received national attention in the education press and has been called a role model for other urban institutions.

During the past year, the program has been extended to include senior citizens in the university's Foggy Bottom neighborhood and has been favorably received by a number of local residents.

Robert D. Garber, assistant director of alumni relations, is the administrative staff member chiefly responsible for the program.

MOST VALUABLE PLAYERS

Seven of the university's women student-athletes won Most Valuable Player trophies during the year. They are Laurie Cann in basketball, Judy Morrison and Carmen Samuel in volleyball, JoAnne Heeke in gymnastics, Jeannie Dahnk in swimming/diving, and Joan Anderson in squash. The trophies are given annually.

PROFESSIONAL ACTIVITIES

JAMES E. FALK, professor of operations research, and J.F. Bard presented a paper entitled "Computing Equilibria via Nonconvex Programming" at the joint national meeting of the Operations Research Society of America and the Institute of Management Sciences (ORSA/TIMS), held in New Orleans April 30-May 2.

ANDREA FARBMAN-MORRIS, research instructor in human kinetics and leisure studies, presented two papers entitled "United States Legislation Providing Recreation Services for Special Population Groups: Implications for Canadian Legislation" and "Client Assessment of Leisure Functioning: Phase One of the Therapeutic Recreation Process" at the annual meeting of the British Columbia Recreation and Parks Society, held in Vancouver, B.C. on May 11.

ANTHONY V. FIACCO, professor of operations research, and A. Ghaemi presented

a paper, "Solution and Sensitivity Study of a Water Pollution Abatement NLP Model Under Various Environmental Control Policies," at the joint national meeting of the Operations Research Society of America and the Institute of Management Sciences (ORSA/TIMS), held in New Orleans April 30-May 2.

DENNIS E. GALE, assistant professor of urban and regional planning, was a member of a panel on "Neighborhood Revitalization" at the Mid-Atlantic Regional Conference of the National Association of Housing and Redevelopment Officials held May 7 in Washington.

DONALD GROSS, professor of operations research, was invited to present a paper, "SASPRO--Spare and Server Provisioning Program," at the joint national meeting of the Operations Research Society of America and the Institute of Management Sciences (ORSA/TIMS) in New Orleans, April 30-May 2.

LANCE J. HOFFMAN, associate professor of engineering and applied science, has been appointed distinguished visitor by the IEEE Computer Society for 1979-80.

GARTH P. McCORMICK, professor of applied science, was invited to chair a session on "Nonlinear Programming" at the joint national meeting of the Operations Research Society of America and the Institute of Management Sciences (ORSA/TIMS), held in New Orleans April 30-May 2.

ELDOR O. PEDERSON, associate professor of geography and regional science, presented a paper entitled "Office Location in Third World Cities: Some Observations from Asia" at the 75th annual meeting of the Association of American Geographers in Philadelphia on April 25.

RICHARD M. SOLAND, research professor of operations research, chaired a session titled "Stochastic Optimization" at the joint national meeting of the Operations Research Society of America and the Institute of Management Sciences (ORSA/TIMS), in New Orleans April 30-May 2. Professor Soland presented two papers at the meeting: "Modeling of Multicriteria Facility Location Problems" (with G. Terry Ross) and "An Approximation Method for Computing Statistical Measures on Polytopes" (with J.R. Charnetski). He was also elected to fill an unexpired term as Southeast Regional Councillor of Omega Rho, an international operations research honor society.

MARGARET A. STROM, adjunct instructor in English, recently received her second master's degree, the Master of Fine Arts, from the university. Mrs. Strom submitted two sculptural chair designs as part of her master's thesis.

ALAN G. WADE, assistant professor of speech, chaired a program on "New Forms of Poetry" at the annual meeting of the Eastern Communication Association in Philadelphia on May 5. Participating was Dr. Charles Patrick, a Washington-based poet-artist who has been working with GW speech and drama students in developing performance pieces based on conceptual art.

ELYCE ZENOFF, professor of law, presented a paper entitled "Adult Standards and the Violent Juvenile Offender" at the third annual international symposium on law and psychiatry held in Vancouver, B.C. May 10-13. The symposium was sponsored by the Forensic Psychiatric Services Commission of British Columbia.

GRANTS

MARCELLA B. BRENNER, professor of education, a $5,000 training grant for the MAT-Museum Education Program, from the National Endowment for the Arts.

RAYMOND S. COTTRELL, JR., professor of special education, a $27,594 training grant for participation by 70 trainees in the "Cooperative Planning

for the Handicapped" workshop, from the Rehabilitation Services Administration/ OHDS/DHEW.

SAMUEL HALPERIN, director, Institute for Educational Leadership, a $6,000 services grant to publish a family impact seminar report, from the Charles Stewart Mott Foundation; a $9,900 research contract to study the effects of work schedules on families, from the U.S. Department of Commerce; and a $54,969 grant to administer a fellowship for education reporters to study the effectiveness of public elementary and secondary education, from the National Institute of Education/DHEW.

DONALD E. HAWKINS, professor of human kinetics and leisure studies, a $5,000 support grant to publish the proceedings of the international symposium "Tourism and the Next Decade" held at the university March 11-15, from the U.S. Man and the Biosphere Program National Committee/Department of State.

LANCE J. HOFFMAN, associate professor of engineering and applied science, a $50,768 research grant to develop new models and metrics in computer security, from the National Science Foundation.

RICHARD E. MERWIN, research professor of engineering, a $19,481 research contract to demonstrate the feasibility of generating microcode from a PASCAL-based source language, from TRW Defense and Space Systems/TRW Inc.

GASTON J. SIGUR, director, Institute for Sino-Soviet Studies, a $25,000 support grant for activities at the Institute for Sino-Soviet Studies, from the J. Howard Pew Freedom Trust.

GEORGE V. VAHOUNY, professor of biochemistry, a $78,538 research grant to study the regulation of cholesterol ester levels in blood and tissues, from the National Heart, Lung, and Blood Institute/PHS/DHEW.

BOARD ELECTS NEW ALUMNI TRUSTEE

Hazel S. Hanback, director of the Documentation Division of the Naval Facilities Engineering Command, was elected an alumni trustee of the university at the May meeting of the Board of Trustees.

A 1940 GW graduate, Mrs. Hanback has been a member of the General Alumni Association's Governing Board since 1972. In that year she also received an alumni service award. She has served as president of the Columbian Women, an association of alumni which raises student scholarship funds. A former president and board chairman of the George Washington University Club, Mrs. Hanback is also a past president of the West End Citizens' Association. In 1965 President Lyndon Johnson awarded her the Department of Defense Certificate of Merit for developing a new publishing technology which resulted in substantial savings.

Mrs. Hanback takes the place of Joseph B. Danzansky, chairman of the board of the National Bank of Washington, as an alumni trustee. Mr. Danzansky, who joined the board in 1972, now becomes a charter trustee.

Made honorary trustees at the May meeting were Thornton W. Owen, chairman emeritus of Perpetual Federal Savings and Loan Association, Washington, and Franklin J. Lunding, counsel, Scoby, Biggam & Lunding, Chicago. Mr. Owen became a member of the board in 1967; Mr. Lunding in 1962.

TIAA-CREF PLAN IS MODIFIED

In January of this year the mandatory retirement age for university employees was raised from 65 to 70. In keeping with this change, the TIAA-CREF Retirement Plan was modified by the Board of Trustees at its May meeting.

University contributions will continue for members of the plan whose employment continues until age 70. A second modification allows for the purchase of Supplemental Retirement Annuities (SRA) under the Tax Deferred Annuity (TDA) option. With this change, contributions by the employee in excess of a 5 percent contribution to the regular plan can be used to purchase SRAs. The participant may cash in SRAs for their partial or full accumulated value at any time. In the near future, the Office of Personnel Services will issue information about the purchase of SRAs to all plan participants.

EINBINDER WILL BECOME ASSISTANT TREASURER

John C. Einbinder, the university's director of business affairs, has been elected assistant treasurer for business and procurement affairs, effective July 1. Mr. Einbinder, who joined the university in 1951, has

John C. Einbinder

been in his present post since 1973.

"As the procurement process becomes more and more sophisticated and our dollar value continues to rise, we need to focus more attention on this vital area," said Vice President and Treasurer Charles E. Diehl in announcing the action following the Board of Trustees meeting on May 17.

Assistant Treasurer Robert E. Dickman will be assistant treasurer for facilities with the Physical Plant Department reporting to him. Robert F. Burch, director of the Physical Plant Department, together with J. Roger Lyons, director of design and planning, will work with Mr. Dickman to provide coordination of the university's facilities planning and design, construction, maintenance, and operation.

"The university now has in excess of five million square feet of buildings on campus," Mr. Diehl said. "As the problems of cost, space, use, and energy conservation increase, close coordination and supervision of all aspects of our facilities are essential."

ALUMNI ANNUAL AWARDS RECEPTION JUNE 3

The General Alumni Association's Annual Awards Reception will be held on Sunday, June 3, in the third-floor ballroom of the Marvin Center from 3:30 to 5:30 p.m.

Members of the faculty and administrative officers who have served the university, its students and alumni for a quarter-century will receive twenty-five year awards. Alumni service awards will be presented and special recognition will be given to retiring faculty.

Administrative officers and non-medical 25-year faculty who will be honored include David Springer Brown, professor of management; Paul Arthur Crafton, professor of engineering administration; Frank Landt Dennis, professorial lecturer in journalism; William David Johnson, director of planning and budgeting; Edward Andrew Potts, professor of law and associate dean of the National Law Center; and Loretta May Stallings, professor of human kinetics and leisure studies.

Alumni service awards, given in recognition of devoted and invaluable service to the university, will go to Richard J. Pronk, engineer alumni; Richard A. Ward, law alumni; and Frances L. Ware, Columbian Women.

Receiving special recognition as retiring faculty will be James Joseph Feffer, professor emeritus of clinical engineering and of medicine; Harold Paul Green, professor emeritus of law; Roy Hertz, professor emeritus of research pharmacology; William Wallace Kirkpatrick, professor emeritus of law; Robert Kramer, professor emeritus of law; Carl Herman Pfuntner, associate professor emeritus of philosophy; Robert C. Vincent, professor emeritus of chemistry; and also Rupert C. Woodward, university librarian.

All members of the university community are invited to subscribe for the reception. The Alumni Office, ext. 6435, has further information.

faculty newsnotes

PROFESSIONAL ACTIVITIES

JOHN G. ALLEE, JR., professor of English, presented a paper entitled "Translating

Greenlandic - A Cursory Survey of Some Grammatical Problems" at the annual meeting of the Society for Advancement of Scandinavian Study held at the University of Kansas, May 3-5. Professor Allee spoke on "The Importance of Scandinavian Languages and Culture to the U.S." at the monthly meeting of the Society of Federal Linguists on May 12 in Arlington.

GEORGE R. BOZZINI, associate professor of English, attended the 31st annual conference of the National Association for Foreign Student Affairs held in Phoenix, May 8-11. Professor Bozzini also co-edited the daily conference bulletin.

PHILIP H. HIGHFILL, JR., professor of English, accepted the George Freedley Memorial Award from the American Theater Library Association at a reception in New York City on May 14 for the Biographical Dictionary of Actors, Actresses, Musicians, Dancers, Managers and Other Stage Personnel in London, 1600-1800. The multi-volume biographical dictionary was compiled by Professor Highfill, Kalman A. Burnim and Edward A. Langhans.

JOHN W. KENDRICK, professor of economics, addressed the New York City chapter of the National Association of Business Economists on the economic outlook April 20 at the Harvard Club. On May 4 he was a discussant at meetings of the Conference on Research in Income and Wealth in Washington. On May 24, Professor Kendrick presented a paper, "Recent Productivity Trends in the United States," at a University of Toronto conference.

EDWIN P. KULAWIEC, associate professor of education, gave a slide-tape-film presentation entitled "Janusz Korczak - An Educator Ahead of His Times" at the Janusz Korczak Symposium held May 8 at Southern Connecticut State College in New Haven.

CHUNG-WEN SHIH, professor of Chinese, is one of 15 scholars selected by the U.S. Committee on Scholarly Communication with the People's Republic of China to participate in the Senior Scholar Research Program during the 1979-80 academic year. Professor Shih's areas of study are Chinese literature and drama.

RICHARD M. SOLAND, research professor of operations research, addressed faculty and students of the Ecole Polytechnique in Montreal May 14. His topic was "Une Approche Multicritere a la Localisation de Facilites pour le Secteur Public."

IRENE B. THOMPSON, associate professor of Russian, presented a paper entitled "Acquisition of Cases by Adult Learners of Russian as a Foreign Language" at the national meeting of the American Association of Teachers of Slavic and East European Languages in New York City December 26-30, 1978. Professor Thompson presented a paper entitled "What is an Advanced Student of Russian?" at the Mid-West Slavic Conference held in Minneapolis May 3-6.

PUBLICATIONS

ROBERT K. EVANS, visiting assistant professor of anthropology, and Brian Hesse, co-authors of an article, "A New Permanent Exhibition at the Smithsonian Institution," Archaeology, May/June 1979, Vol. 32:3, pp. 53-55.
------ a book review, "Bibliographical Leaflets on Archaeology," for the Institute of Archaeology at UCLA, on Art and Culture of the Cyclades in the Third Millennium B.C., edited by Jurgen Thimme and Pat Getz-Preziosi.
------ a chapter, "Early Craft Specialization: An Example from the Balkan Chalcolithic," in Social Archeology: Beyond Subsistence and Dating, edited by Charles L. Redman, et al., pp. 113-129, 1978.

JOHN W. KENDRICK, professor of economics, the introduction to Productivity Accounting, by Hiram Davis, University of Pennsylvania Press, 1979.

EDWIN P. KULAWIEC, associate professor of education, an article, "Father to All" (a translation about Janusz Korczak), The Christian Science Monitor,

April 17, 1979.
------ an article, "Janusz Korczak - Physician - Humanitarian," The Journal of the American Medical Association, May 18, 1979.

GRANTS

SAMUEL HALPERIN, director, Institute for Educational Leadership, a $75,000 fellowship grant to establish the Associates Program in Indiana and Kentucky and to ensure the continuation of four existing programs in three states--Michigan, Ohio, and Illinois--from the Lilly Endowment, Inc.; and a $107,500 training grant for the education policy fellowship program in Cleveland, from the Cleveland Foundation.

RICHARD H. SCHLAGEL, professor of philosophy, a $1,000 grant to sponsor philosophy lectures, from the Franklin J. Matchette Foundation.

President Elliott greets GW Security Officer Sheila Brown at the May 24 luncheon. Officer Brown was in the Thurston Hall lobby at 3:56 a.m. April 19. When the alarm went off, she had just completed a sweep of the building with Officer Calvin Acker. She returned to the 5th floor and then assisted with the evacuation.

PRESIDENT ELLIOTT SAYS THANK YOU TO FIRE WORKERS

Nearly 100 members of the university community attended a special luncheon in the President's Dining Room of the GW Club May 24. The group was invited by President Elliott in appreciation of outstanding services during and after the April 19 fire in Thurston Hall.

"This occasion is a small token of the thanks that I want to extend to everyone here and to their associates on behalf of this institution," Dr. Elliott told his guests. "As I look back, I just have to conclude that, had your superhuman efforts not been made, it might have all been different. The fact that no one lost his or her life is a most important factor in the experience," he said.

Dean of Students Gail Short Hanson commented, "This is one of the most extraordinary groups ever assembled in this room. From this experience I've gained another view of how well we work together when a situation like this comes up." The hospital staff, she said, was especially helpful, and allowed the Dean of Students Office to be well-informed and responsive to families' inquiries.

"For the Physical Plant Department this has been a year of extremes," said Director Bob Burch, referring to the big snow in February and then the fire and soot. "It's nice to be thanked," he went on, "but I can say for the PPD people here, that's what we're here for." He called the Thurston Hall clean-up "a nasty-type job" and added, "I hope we won't have to do it again, but if we do, the Physical Plant Department will be there."

Around-the-room introductions showed

The President's luncheon

a wide cross-section of university people in attendance.

COMMUNICATION DISORDERS OF THE ELDERLY IS CONFERENCE TOPIC

The Speech Pathology and Audiology Service and the Rehabilitation Research and Training Center #9 of the George Washington University Medical Center are presenting a conference on the communication disorders of the elderly on Thursday and Friday, June 14 and 15, Room 117, Ross Hall.

The conference will focus on identification, treatment of communication disorders, and effective communication with the elderly. The meeting will be of interest to those in the fields of gerontology, medicine, social service, psychology, vocational rehabilitation, health care administration, and others who work with the elderly.

Speakers will include E. Bentley Lipscomb, staff director for Senator Lawton Chiles, chairman of the U.S. Senate Special Committee on Aging, who will give the keynote address, and Dr. Valery Portnoi, director of geriatric medicine at GW Medical Center.

Continuing Education Units (CEU) and Continuing Medical Education Units (CME) will be granted. Pre-registration before June 5 is required. For registration information, contact Conference Coordinator Ann Scott Coakley, M.Ed., speech/language pathologist, ext. 3631, Room 2359, GW Hospital.

SMITH CENTER SCHEDULES SUMMER SOCCER CAMP

Responding to numerous community requests, GW's Athletic Department will sponsor a summer soccer camp for young persons ages 6 to 16 during the week of August 20 to 24.

Under the direction of GW soccer coach Georges Edeline, the camp will develop modern soccer techniques -- skill development, team sense, tactics, and conditioning.

For information and registration forms, call ext. 6654.

PUBLICATIONS

DAVID S. BROWN, professor of management, a chapter, "Rethinking the Supervisory Role," in Management--A Programmed Instructional Approach, edited by Leonard J. Kazmier.

----- a chapter, "Guidelines and Principles for the Consultant in Cross-Cultural Assistance," in Helping Across Cultures, edited by Gordon L. Lippitt and David S. Hoopes.

----- a chapter, "Shaping the Organization to Fit People," in Industrial Organizations, edited by George H. Rice, Jr.

LINDA DONNELS, director, Services for Students with Disabilities, and Harry Olsen, co-editors of a book,

Basically Yours: Adult Basic Education Resources for Teachers of Deaf Adults, Gallaudet College Public Services, 1979.

PROFESSIONAL ACTIVITIES

DAVID S. BROWN, professor of management, addressed the Judicial Conference of Virginia for District Judges May 4 on the decision-making process. Professor Brown presented a paper entitled "Bureaucratic Management in the Public Sector: Is Bureaucracy the Only Way?" at an international conference, The Future of Public Administration, held in Quebec on May 28.

LINDA DONNELS, director, Services for Students with Disabilities, was the keynote speaker for the Missouri Valley Adult Education Association annual conference on April 19 in Mankato, Minnesota. Her address was entitled "Access: A New Mandate for Adult Education."

MICHAEL ESMAN, chief catalog librarian, University Library, spoke on the cataloging of audiovisual materials utilizing the Ohio College Library Center (OCLC) data base at a conference for library media technicians held on May 19 at the University of the District of Columbia.

ANTHONY V. FIACCO, professor of operations research, chaired a symposium, "Mathematical Programming with Data Perturbations," May 24-25 at the Marvin Center. The symposium was designed to bring together practitioners who use optimization models and who deal with questions of sensitivity analysis with academic and other research workers who are developing tools applicable to these problems.

WILLIAM B. GRIFFITH, associate professor of philosophy, presented a paper entitled "Economic Justice and the Right to Earn a Livelihood" at a conference on philosophy and economics held at Michigan State University May 18.

WILLIAM D. STEEVES, JR., assistant director, Continuing Engineering Education Program, participated as a spokesman and panelist at the May 22 meeting of the Society of Professional Engineers, D.C. Chapter, which addressed the topic "Mandatory Continuing Education--Pro or Con?"

GRANTS

IRA H. CISIN, professor of sociology, a $46,543 research contract to analyze the factors leading to youth employment and unemployment, from the U.S. Department of Labor; and a $191,537 research contract to develop an information system to serve interagency panels dealing with federally sponsored research and development in early childhood and adolescence, from the National Institute of Education/DHEW.

JEROME CORNFIELD, professor of statistics, an $84,987 research grant to develop new statistical methods for multiparametric problems arising in cardiovascular research, from the National Heart, Lung, and Blood Institute/NIH/PHS/DHEW.

SAMUEL HALPERIN, director, Institute for Educational Leadership, a $105,000 research grant to expand opportunities in educational research for women and members of minority groups, from the National Institute of Education/DHEW.
